100% ECF PULP					

Rey Adagio is manufactured on a production site which is well-known for its environmental performance.

Wood comes from sustainably managed forests located near the mill. We do not use imported wood or pulp.

Green energy (biomass) meets 85% of the mill energy needs.

The production site is a standard setter worldwide for its CO2 emissions.

The mill is ISO 9001 (quality), ISO 14001 (environmental management), ISO 9706 (archiving) and OHSAS 18001 (health and security) certified.
